

VCU COVID Policy  
Updated 7.21.22

VCU COVID policy, approved by the board on 21 July 2022:

- We ask that all performing members of VCU be fully vaccinated.
- If you have symptoms that could be COVID (by now you certainly know what those are!), please do not come to a VCU gathering until you have recovered fully.
- If you wish to wear a mask, please feel welcome to do so, up to and including during performances; masking is not required, and there will be chorus members singing without masks.
- We anticipate having the same masking policy for our audiences. At the moment, there are no mask requirements for either audience members or performers at either of our concert venues.

\* We cannot predict how the pandemic will evolve, the VCU board reserved the right to change this policy at any time.
